Business Coaching price rise update

Advance Notice : **Avoid the price rise**

As of the 1st of June 2011 our business coaching will be priced at **\$7500 + GST for the 12 month program**. This new price still represents excellent value given that it includes personal mentoring, work/life balance, strategic planning, succession planning and professional development.

25 clients already impacted

Call us now and learn why 25 of PDK's clients are already coached and how you can benefit also. **In a one hour presentation** we can analyse your needs and share how you can more effectively work on your business and create the lifestyle you've always dreamed of. This presentation is at our cost and with **no obligation** on your behalf.

What are the benefits?

Conducted one-on-one in a collaborative, confidential environment, coaching provides an opportunity to gain clarity, remove self-imposed limitations, and become more self-reliant, so that people and businesses can reach their full potential.

Coaching assists people to see where they are, where they want to go, and how to get there. Coaching:

- ◆ Helps you set clearer goals and then assists you to reach those goals
- ◆ Inspires you to do more than you would have done on your own
- ◆ Helps focus your attention to areas that are of most importance
- ◆ Provides you with the tools, support and structure to accomplish more
- ◆ Helps you find your own answers.

How do I proceed?

If you've been considering business coaching at all, please ensure that you get in **prior to the 1st of June and lock in at the old pricing** for the next 12 months. Just call us on (08) 8271 9555 and ask Mara to organise a time at your convenience, your place or ours.
